NEVE

the specialist of snow and ice

Neve is the professional wheel for rallies on winter tracks.

The particular dimensions make the rim suitable to the use of specific tires - even studded - for racing on ice; for many years Neve has been protagonist in dozens Nordic races on snow and ice.

Neve can be used also on road cars with original brakes, like Mitsubishi and Subaru: thanks to a special kit the wheel can easily be installed on the hub.

AVAILABLE SIZE

Size	Min ET	Max ET	Max PCD	Weight range (kg)
5,5Jx16"	24	56	114.3x5	8.6 - 8.9
