OFFcrk

the fast jack for racing off-road cars

OFFcrk is the hydraulic jack designed for every kind of off-road racing car. The main components are machined from billet aircraft aluminum. The adjustable foot guarantees a stable and safe hold even on stony and rough ground, while the lifting pin is made from tempered high res steel and can be adjusted in different positions with a very simple and practical mechanism, in order to be used for any car setup.

OFFcrk is a light, fast and easy to use product suitable for heavy duty.
