the master of gravel rally

SanremoCorse 15 is the 15 inch specialist of gravel rally. The rim contour is optimized for the use of large brake calipers and the installation of gravel tires. The solid spokes increase the strength of the wheel, the valve hole is protected to prevent stone chips damage. The rim can also be machined in lightweight version for tarmac use, but it gives the best when used in heavy duty gravel rally.

SanremoCorse 15 is a classic – available since 2004 – that has collected countless victories, even in the WRC.
