Montecarlo *Corse*

for Lancia Delta enthusiasts

MontecarloCorse is the rim for Lancia Delta: a precise reproduction of the original magnesium wheel, made of aluminum alloy.

Available in 7x15", 7.5x16" and 8x17", MontecarloCorse can fit the EVO Corse hubcap and is equipped with steel inserts on the seat of the nut. Being the replica of the original Group A wheel, it requires long studs for fitting on car.

MontecarloCorse is available also in the application for FIAT: it looks perfect on the 500 Abarth.
