

EVO *Corse*

OLYMPIA *Corse*

the rim for heavy duty gravel rally

OlympiaCorse is the wheel for gravel rally with a strength/weight ratio at the top of its class.

The wheel design has been developed in order to have material only where necessary, removing any needless detail: technology and essentiality for maximum performance. The rim contour allows the use of the largest multi-piston brakes, easing the tire mounting.

OlympiaCorse is **available in 15"** for the heaviest duty on gravel, **while the 16"** version is conceived for road and light off-road use.

AVAILABLE SIZES

Size	Min ET	Max ET	Max PCD	Weight range (kg)
6,5Jx15"	0	28	120x5	7.9 - 8.5
